

VIGILANT SOCIETY

Membership Handbook 2010

Vigilant Society Welcomes You!

Vigilant Society's strength is found in a unified community of members who are healthcare consumers and healthcare service providers in America, India and around the rest of the world. Membership is open all!

When you joined Vigilant Society as: an Individual Member, a Family Member, a member through a Small Business, through a Larger Group, or through a referral by your Insurance Company, you knew Vigilant Society is not health insurance but a concierge service. Still you decided to become a member because as a healthcare consumer you decided to seize control of your own health, your own healthcare, to preserve your healthcare dollars and save up to 94% vs the catastrophic costs of medical, dental and surgical care at home. On the other hand, you may be one of our celebrated members in the medical services field, i.e., Physician, Surgeon, Hospital Corporation, Health Insurer, Laboratory Services, Pharmaceutical manufacturer or distributor with an agenda of saving money, increasing revenues, or increasing your patient-doctor ratio, to one and all, thank you for your membership and welcome! We promise to work diligently every day on developing and proving new services benefiting your membership. Membership is for 3 years; we have made it the very best concierge service at any price, but especially for our uninsured members it is still the lowest priced concierge service!

Our History

Membership in Vigilant Society became possible in 2008 and was built upon the cornerstones of the member's medical needs and services. From the beginning, the concept was to establish a Travel and Medical concierge service provided by professional surgeons and doctors, hospitals, clinics and laboratories in India and other medically advanced countries matched with consumers from our membership-based clients in America, Canada, the United Kingdom, South America, Saudi Arabia and the Emirates. The creators of Vigilant Society, having worked in medicine for more than 80 years, discovered a 'niche' in medical services, which had gone unfilled. With timely solutions to complicated synergies, solutions to many cross border legal issues and solutions of the confidence factor within of the ranks of the healthcare consumer, Vigilant Society was born.

Our membership today consists of an alliance of hospitals, surgeons, medical doctors, medical research scientists, specialized clinics from Cardiac and Obesity to Invitro Fertilization clinics have agreed to provide Vigilant Society members with the most professional medical and surgical care in the world at savings up to 94% off the typical costs in America. Vigilant Society is the members' advocate. Vigilant Society does not receive kickbacks from hospitals, doctors, pharmaceutical companies, airlines or anyone else. Vigilant Society has a big mission, to secure the world's best medical and surgical care at the world's best prices for our membership. *We are dedicated to your advocacy!*

Our Mission:

TO SERVE AND SUPPORT VIGILANT SOCIETY MEMBERS WHO HAVE HEALTHCARE ISSUES BY PROVIDING ACCESS TO THE MOST RELIABLE AND PROFESSIONAL HEALTHCARE SERVICES AT THE LOWEST POSSIBLE COSTS, WHILE PROMOTING VALUED ADDED SERVICES FOR HEALTHCARE CONSUMER MEMBERS, CORPORATE MEMBERS AND PROFESSIONAL MEMBERS ALIKE.

Member Benefits

Joining Vigilant Society as a member interested in diminishing exposure to catastrophic healthcare costs becomes a limited financial commitment when

balanced against the savings potential in most any advanced medical or surgical procedure. Vigilant Society does not guaranty any specific savings on any medical or surgical procedure, as we are not in control of such pricing or services. Furthermore, joining Vigilant Society as a member who has no healthcare insurance, or is underinsured, or has healthcare insurance without a provision for existing or preexisting conditions, could be the perfect access to the same life saving care needed but at vastly more affordable costs. You must pay all your own bills, however, the costs of your surgical or medical procedures are substantially reduced with savings to 80%.

We at Vigilant Society believe it important for our members to know of the benefits to which membership entitles them today and beyond. We encourage our members to read through the following pages and to contact us at: membershipissues@vigilantsociety.com with any questions, concerns, or requests.
